

Objective of Unit 5: Evaluation

1. To understand the need and rationale for evaluation
2. To be introduced to different types of evaluation
3. To gain an overview of different methods and instruments
4. To be able to identify different contexts in which particular instruments are appropriate

What is evaluation?

The general idea of evaluation is to determine:

☞ Is it good?, Did it go well?

or

Is it bad? ☞

Why evaluate?

Every good educational programme or policy has specific Objectives that are to be met:

- Testing whether objectives set at the beginning are met by the programme
- Improvement of the programme or policy
