

Dear Parents,
we would like to inform you about the mentoring system we have set up to support your children whilst they attend this school. It is called SALAM.

This is what SALAM sets out to do:

- Suitable Students from the University of Education are chosen to mentor a primary school child from October until July.

- Once a week for 2-3 hours the students meet with the child they are mentoring.

- A time is agreed with the parents as to when and where the children and students will meet. The children could be collected straight from school or be picked up from home, depending on what suits the family best.

- The aim is for children and students to meet during their free time, giving them an opportunity to play together, get to know new places in the locality and to hear and speak a lot of German.

- Activities could include things like: going to the local library or museum; baking together, cycling or swimming, learning to write a diary.

- If so wished the students can also offer support when the family has questions about matters of school or daily life.

- The students receive no money as it is part of their educational training. They will be supervised by the Educational College..

For further information please check our website: www.ph-freiburg.de/salam

We would be delighted if you are willing to allow your child to be part of this programme. We look forward to meeting your children!
